Aloha,

OCT 23 2007

TECH CENTER 1600/2900

Please let my words be read by a open mind and heart. I urge you to support the Request for Re-examination of Patent # 6,924,413 from AAVS.

Issuing patents on animals is an inappropriate application of the U.S. patent law. Animals are sentient beings, not machines or mere "compositions of matter".

Please, stop patenting animals

"The greatness of a nation and its moral progress can be judged by the way its animals are treated."

Gandhi

P.S. I also urge you to not support in any way the use of genetically engineered plants. There are serious health repercussions for all life.

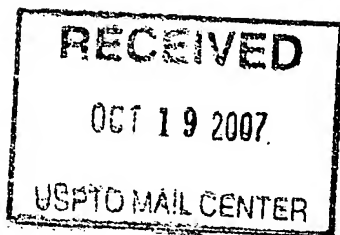

Sincerely, Kathleen J. McFee
